

***TO WHOM IT MAY CONCERN,***

Geomatics Engineering Department of Osmaniye Korkut Ata University has a vision to educate well trained and qualified engineers for our country.

Students are required to do internships at least 30 business days to consolidate and expand their theoretical and practical knowledge gained from education in the faculty in accordance with *Internship Directive* of our faculty.

For the assessment of student internships at the end of the internship "Internship Evaluation Form" is attached. Thank you for your contributions and we wish you every success in your business.

Best Regards,

Geomatic Engineering Department

Member of Internship Commission
